

**AMENDMENTS TO THE SPECIFICATION**

**Please replace the first full paragraph on page 15 with the following new paragraph:**

According to the present invention, the organic sulfur compound as component (D) includes thiophenol, ~~thiophthol~~ thionaphthol, halogenated thiophenol, and metal salts thereof. Their typical examples include pentathiophenol, pentafluorothiophenol, pentabromothiophenol, and parachlorothiophenol, and zinc salts thereof; diphenylpolysulfide, dibenzylpolysulfide, dibenzoylpolysulfide, dibenzothiazoylpolysulfide, dithiobenzoylpolysulfide (polysulfide having 2 to 4 sulfur atoms), alkylphenyldisulfide, sulfur compounds having a furan ring, and sulfur compounds having a thiophen ring. Of these examples, zinc salt of pentachlorothiophenol and diphenyldisulfide are preferable.
